

BASA General Election 2012-2013

Chris Cardwell

chriscardwell13@gmail.com

Candidate for: Vice President Internal

My name is Chris Cardwell, I am in my fourth year of studies at the University of Winnipeg pursuing two degrees; Business Administration and Computer Science. I have been on BASA for 3 years, first as an Associate Officer of Information Technology, and for the last two as the Executive Officer of Information Technology. During my term as those positions, my accomplishments include revamping of the BASA website, creation and launch of our social networking site myBASA, and continual updating and innovation of BASA's online services for our members.

My extensive experience within BASA combined with the technical knowledge required for Vice President Internal makes me a solid candidate for the position. Being a part of BASA these last few years has provided me with insight for ideas to continue and improve on BASA's success, and I would love have a strong presence behind the inevitable growth of BASA this upcoming year.
